

## WHO WE ARE:

Since 1959, the Community Child Guidance Clinic has been providing a variety of mental health and special education services to children and families in Connecticut. With a range of programs and treatment options to meet every family's needs, plus a commitment to inclusivity and innovation, we are here to provide high quality care that makes an impact and helps children to achieve their full potential.

## WE HELP CHILDREN WHO ARE:

- affected by emotional and behavioral difficulties.
- unable to function in a mainstream public school setting.
- victims of violent crimes, such as physical and sexual abuse, domestic violence, and homicides.
- suffering from mental illnesses including attention deficit disorder, depression, anxiety, and schizophrenia.
- unsafe toward themselves or others.

## WHAT WE DO:

### CCGC SCHOOL

Provides a safe and nurturing environment for children unable to find success in a mainstream public school classroom.

Small classrooms with a low staff-to-student ratio.

Wrap-around, in-house therapeutic support services.

Individualized services for every child, plus special programming, activities, and more.

### OUTPATIENT COUNSELING AND NORTH STAR IOP

Group and individual counseling options to meet families' varying needs.

Outpatient counseling utilizes traditional talk therapy in addition to new evidence-based practices.

North Star Intensive Outpatient Program provides 6-8 weeks of individual, family, and group therapy every week day to help address serious challenges.

### IN-HOME SERVICES

An intensive level of care that includes individual and family counseling plus psychiatric services.

Counseling provided in the comfort of families' homes.

Comprehensive and individualized assessment and treatment.

Husky A and B both accepted, and families with DCF voluntary services may qualify.

### TRAUMA SERVICES AND VOCA

Trained clinicians provide therapy to kids who have been victims of traumatic events or affected by crime.

The latest evidence-based practices are utilized to provide a high level of care for trauma victims.

Victims of Crime Assistance (VOCA) services also provide help navigating the judiciary system.
